

Regarding Sinclair Broadcasting, this is clearly a question of private versus public interest. This close to a hotly contested election, Sinclair's attempt to label a point-of-view documentary as "news" hardly serves the public interest.

As a local viewer of WBFF/45 and WNUV/24, I must object to a corporate entity using the public airwaves to broadcast what amounts to an unanswered attack on the president's opponent. (If Sinclair dropped the "news" label and provided equal time to Mr. Kerry, I would drop my objection.)

Thank you for your attention.
